

# saunum

A unique home spa sauna heater/climate device

# saunum spa session

The innovative Saunum Spa Session is a unique sauna heater and climate device designed for an advanced sauna experience in apartments and private houses. The large stone volume and patented air mixing system ensure excellent steam that is soft, long and evenly distributed over the entire steam room. When Himalayan salt spheres are added to the device, they enrich the air with salt ions, which have a soothing effect on the respiratory system and skin. Sauna Spa Session lets you choose at least five sauna solutions that turn your sauna into a relaxing spa.

Innovation

## patented air mixing system

Saunam's patented air mixing system captures any scorching steam in the steam room, mixes it with the cooler air coming from the floor, and directs the soft blended steam evenly back into the steam room. This ensures a more even temperature during steaming and a more airy steam that allows you to breathe more easily. Water can be thrown on stones more often, and therefore the sauna air is more humid and the sweating is more intense.

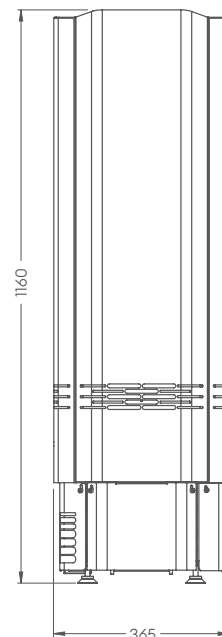

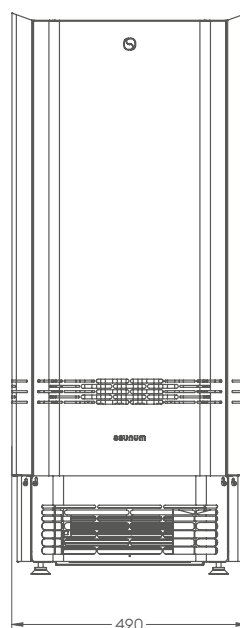

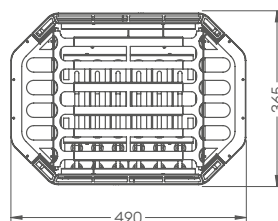

## timeless and classic design

Saunum's innovative air mixing system is integrated into the heater, resulting in a timeless and classic design with no visible flue. The Sauna Spa Session uses materials such as Magnelis® and stainless steel, ensuring durability even with intensive and long-term use.

The two-level stone basket and large stone volume ensure uniform and long heat distribution, which also makes the heater more energy efficient. The heating elements are made of corrosion-resistant AISI 316 steel, ensuring a long service life.

The doused water is evenly distributed between the stone layers, reducing the thermal shock to both the heating elements and the stones, and ensuring uniform and mild steam. The Sauna Spa Session is equipped with an adjustable steam diverter, which allows steam to be directed in three different directions

A unique spa sauna heater and climate device appropriate for home use

## saunum spa session

**Power of the heater** 6 kW / 9 kW

**Steam room** 6–10 m<sup>3</sup> / 9–16 m<sup>3</sup>

**Minimum height of the steam room** 1900 mm

**Minimum safety distance**

from heater's sides 50 mm

from the front 50 mm

from stones to the ceiling 700 mm

**Included:** Heater, climate device, salt balls 7 pcs, automation device (integrated into the heater), control panel with touch screen

**Stone basket** Closed

**Colours of the case** Black

**Climate device** 3 speed levels, adjustment through the Leil touchscreen

**Height** 1160 mm

**Depth x Width** 365 x 490 mm

**Weight** 57 kg

**Amperage** 10A / 16A

**Power cable** H07RN-F cable or equivalent

**Water resistance** IPX4

**Needs in addition:**

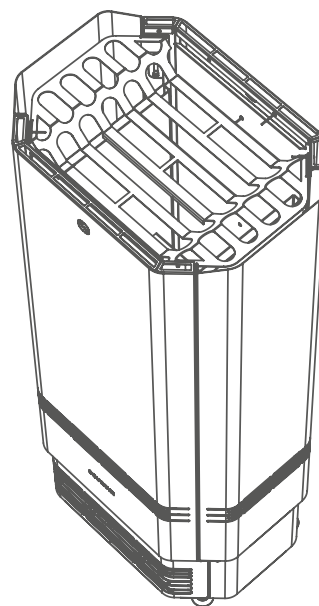

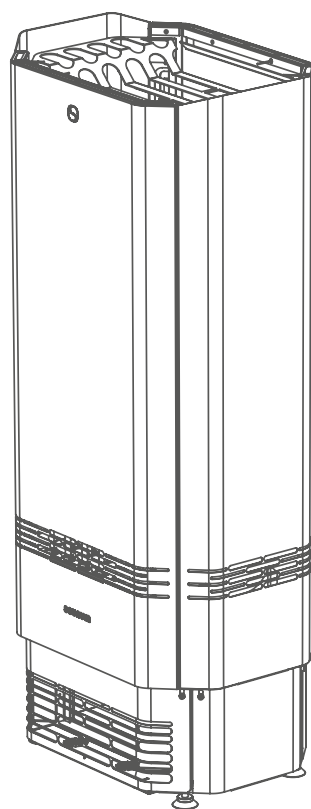

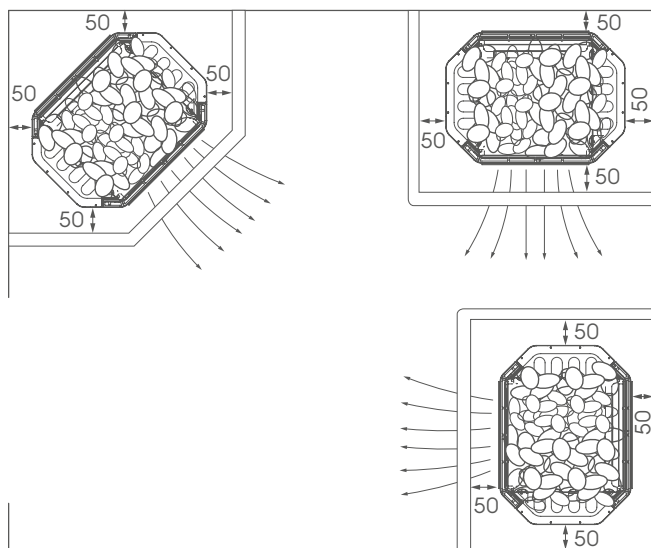

**Heater stones Ø 5–10 cm** 60 kg

**For an aroma sauna** Saunum sauna oil set

## Installation

### versatile heater

Sauna Spa Session is a versatile heater/climate device that can be installed along the wall or in the corner of the steam room. The sauna climate device is designed to heat the sauna room to a temperature ranging from 40 to 90°C while maintaining a balanced sauna climate.

### protection from overheating

The heater control device, Leil, and the fan motor are equipped with thermal switches to ensure the safety and long life of the device.

**Attention!** A steam room with the Saunum Spa Session heater/climate device must not be heated above 90 °C.

### smart sauna control device Saunum Leil

Saunum Leil is a new generation sauna control device that is convenient and easy to use. Leil optimises the time required for heating according to the sauna's specifics, thereby saving energy costs. Selecting one of three pre-set steam regimes, you can heat your sauna with just a few touches of the screen. With Saunum Leil Mobile app, you can control your sauna wherever you are. Sauna notifications are displayed on the user's mobile phone screen.

## Health

### enriched sauna air

The patented method uses Himalayan salt spheres to enrich the air with healthy salt ions that circulate through the steam onto your skin and into your respiratory tract. Salt therapy is a popular treatment for asthma, bronchitis, pneumonia, or sinus infections and relieves breathing difficulties in children and adults.

Relaxing  
home spa

Traditional  
steam

Mild  
long steam

Easy  
to breathe

Suits to the  
whole family

## Aromatherapy

### pleasures of aromatherapy

An even more relaxing sauna experience is created using the Saunam Sauna Oil Set aroma system combined with the climate device, which mixes ethereal sauna oil aromas with steam. It is a healthy alternative to burning aroma oil on heater stones.

Sensational experience

## relaxing sauna and home spa

Try different settings and steam intensities  
and enjoy a unique sauna experience.

### **Classical Nordic steam sauna**

Temperature 60–90 °C

Climate device speed level 1

### **Wet steamy sauna**

Temperature 45–60 °C

Climate device speed level 2 or 3

The lower the temperature and the higher the speed of the climate device, the more steam is generated

### **Mild relaxing sauna**

Temperature 40–55 °C

Climate device speed level 1

### **Sauna enriched with salt ions**

Temperature 40–90 °C

Climate device speed level 1

Insert the Himalaya salt spheres (included) into the tray inside the climate device. The climate device circulates healthy salt ions into the air, which mixes with the steam to the benefit of your skin and respiratory tract.

### **Relaxing aroma sauna**

Temperature 40–90 °C

Climate device speed level 1

Replace one of the salt spheres with an aroma bowl containing a few drops of aroma oil, and enjoy an aromatherapy experience.
